ACROSS TIME AND BORDERS

**A CENTURY OF SERVING
CHILDREN AND FAMILIES**

ACROSS TIME AND BORDERS

Through photos, archive documents and personal testimonies, visitors can immerse themselves in the work of supporting children and families on the route of migration. The exhibition offers a playful and moving exploration of life's journeys, all evidence of a humanistic commitment to a society based on solidarity and non-discrimination.

Two types of guided tour of the exhibition are available:

- **Playful and creative**, for schools and other childcare places
- **Themed**, presented by professionals and beneficiaries of the International Social Service.

These tours familiarise the public with the services provided by the International Social Service and highlight their impact on the lives of individuals and families.
